The Civil Engineering faculty members attend the Third MENA Desalination Projects Forum

The program of civil Engineering, represented by Prof. Mohammad Alhassan, Dr. Omayma Mukhtar and Eng. Esraa Hijah, attended the Third MENA Desalination Projects Forum in Abu Dhabi, to discuss the future of the region's desalination sector, key upcoming mega projects, and national sustainability visions driving the region's 2030 water agendas.

This forum is the largest Desalination conference and exhibition in the MENA region where 400+ regional and international stakeholders from ministries, government authorities, municipalities, consultants, contractors, and solution providers gather under one roof.
