Various activities on the occasion of the World Telecommunication and Information Society Day

The Deanship of Student Affairs - Abu Dhabi Campus - in cooperation with the College of Engineering, organized an event on the occasion of the World Telecommunication and Information Society Day. The event included a lecture entitled "Internet of Things: Fundamentals, Applications, and Future Directions", as well as a student exhibition.

The lecture was presented by Prof. Arafat Al-Dweik- Professor in the Department of Electricity and Computer Science at Khalifa University-. Where he started with an introduction to the Internet of Things (IoT), then moved to the Internet of Things engineering, and ended the workshop with the Internet of Things challenges and proposed solutions. As for the other part of the lecture, students competed on the Quizziz online platform, presented by a student from the College of Engineering, and the first three winners were honored. Finally, a tour of the exhibition was conducted to discover the distinguished projects created by the college students.
